RESOLUTION OF ADOPTION

Resolution #10082024

RESOLUTION BY THE SANDS TOWNSHIP BOARD OF TRUSTEES FOR FINAL ADOPTION OF THE SANDS TOWNSHIP RECREATION PLAN 2024-2029

WHEREAS, the Sands Township Recreation Committee has undertaken a planning process to determine the recreation needs and desires of its residents and support economic growth through tourism during a five-year period covering the years 2024 through 2029, *and*

WHEREAS, the Sands Township Recreation Committee began the process of developing a Draft Recreation Plan in accordance with the most recent guidelines developed by the Department of Natural Resources and made available to local communities, *and*

WHEREAS, residents of Sands Township were provided with a well-advertised opportunity of over 30-days during the development of the draft plan to express opinions, ask questions, and discuss all aspects of the recreation plan, *and*

WHEREAS, a public hearing was held by the Sand Township Board of Trustees on July 30, 2024, at 7:00 p.m. during a special meeting at the Sands Township Office and Facilities located at 987 State Hwy. M-553, Gwinn, Michigan 49841 to provide opportunity for all residents of Sands Township to express opinions, ask questions, and discuss all aspects of the Draft Sands Township Recreation Plan 2024-2029, *and*

WHEREAS, after the public hearing the Sands Township Board of Trustees voted to support the Draft Sands Township Recreation Plan 2024-2029, *and*

NOW THEREFORE BE IT RESOLVED, the Sands Township Board of Trustees hereby adopts the Sands Township Recreation Plan 2024-2029. Motion by D. Kallio, Seconded by J. Yelle.

Ayes: J. Yelle, D. Kallio, L. Yelle, D. Walch, C. Kerkela

Nays: None

INTRODUCTION 5-YEAR RECREATION PLAN

Every 5 years communities throughout Michigan update their recreation plans to ensure qualification for annual Michigan Department of Natural Resources (MDNR) funding opportunities.

The 5-year recreation plan must adhere to a format defined by the MDNR and outline priority goals, objectives, and projects with the potential to be completed within the 5 year window and beyond.

This document synthesizes data on natural resources, community demographics, existing recreation assets, operational management, citizen input, and community partnerships to generate an all-inclusive map for recreation in the community. It describes community values, highlights common goals and objectives, and outlines strategies to achieve these goals.

Looking beyond the 5-year window, this document will serve as a road map for future endeavors improving parks for decades to come. The 2024-2029 Recreation Plan will assist township officials in determining priority projects to nurture an already expansive parks system. It will outline strategies for making parks accessible to all and provide park designs that allow future generations to grow and prosper.

The National Parks and Recreation Association 2022 Agency Performance Review highlights what many of us have realized: “Two years into the Coronavirus (COVID 19) pandemic, one thing is clear: parks and recreation is essential.”

With an uptick in visitation and outdoor recreation during the pandemic, the need for additional recreational resources and access continues. As evidenced in the community feedback received (see Chapter 6 Comments + Issue Scoping) Sands Township is witnessing this demand as well. The priorities outlined in the following chapters reflect community driven parks and recreation goals as well as chart a path forward for the township.

Crunching numbers, the parks and recreation industry provides an avenue for community development and economic resiliency as well. As noted in the June 2023 speech by Lieutenant Governor Garlin Gilchrist II, “The outdoor recreation sector was worth **\$10.8 Billion** to the state’s economy in 2021, providing more than **100,000 direct jobs**.” Sands Township already owns and manages a community park with a diverse palate of recreation opportunities. By generating a plan for sustainable recreation access and design within the township, the promise of a vibrant, diverse recreation destination for current and future generations to meet, exercise, and play can be realized.

Let’s keep this momentum going!

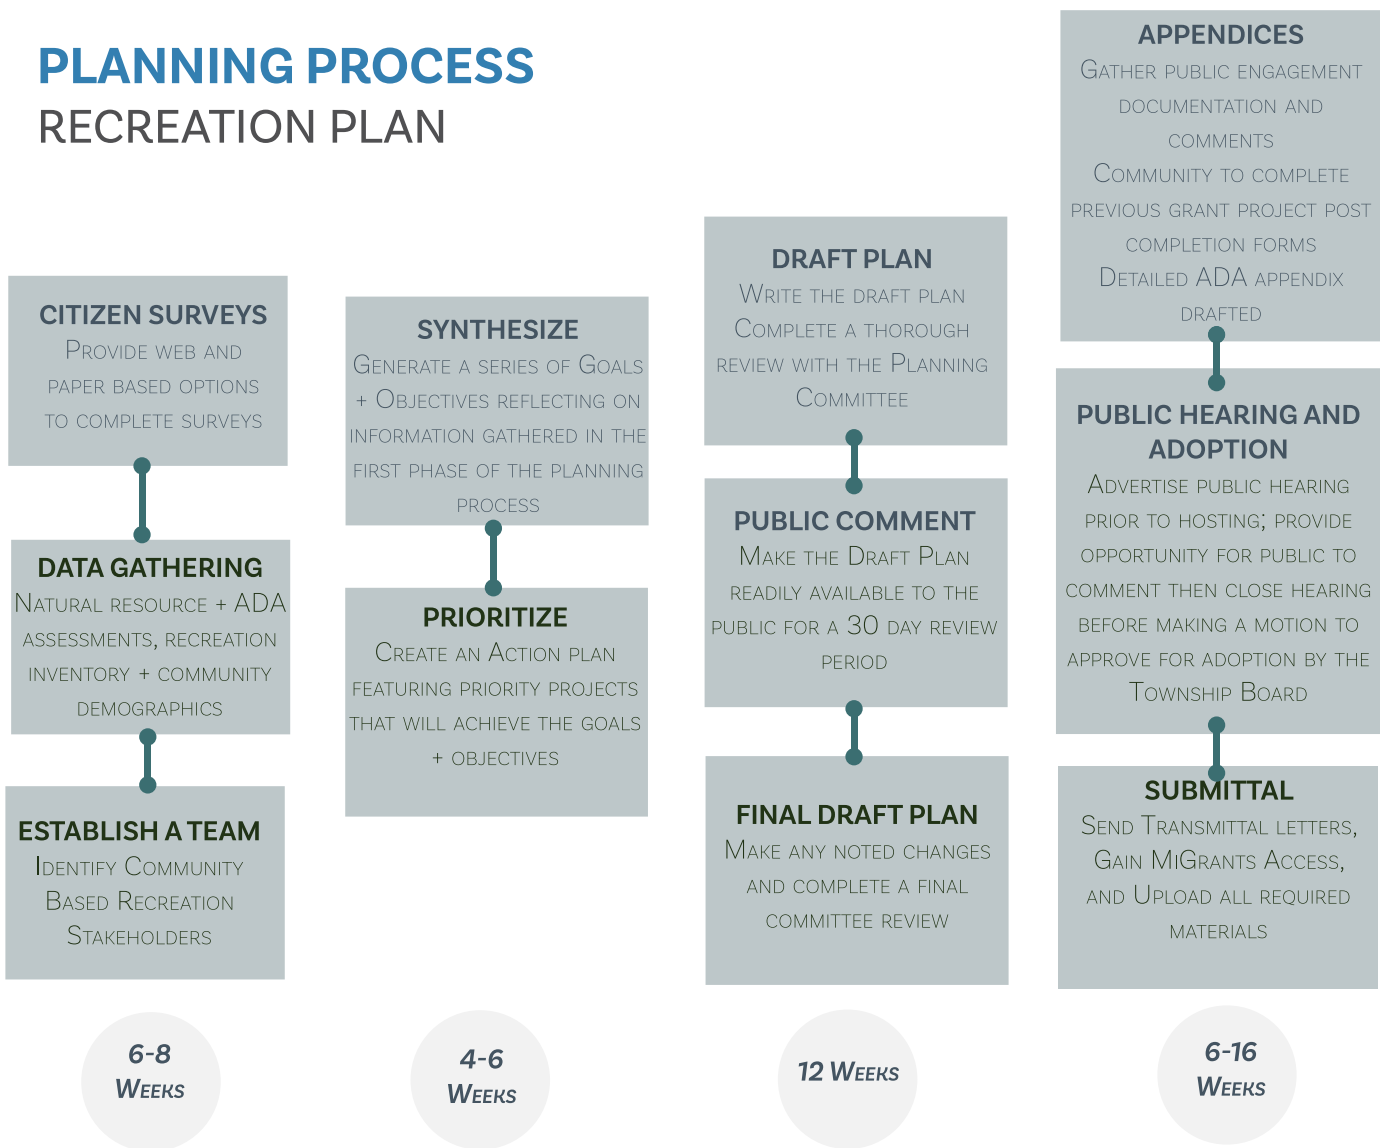

Regional Context

Sands Township is located in east central Marquette County just south of the City of Marquette, in Michigan's Upper Peninsula. The township occupies more than 46,000 acres or 71.9 square miles. The township lies within the Marquette urban area and is known for a large motorized trail network, the Blueberry Ridge pathway system, and Thunder Valley Equestrian Trails.

COMMUNITY DESCRIPTION SANDS TOWNSHIP

Marquette County recently completed their county-wide 2040 Master Plan including detailed studies of each region within. Sands Township is part of the 'Blueberry Farms' region, characterized by an abundance of natural resources, more affordable housing options, a wealth of parks and trails, and ease of access to more urban amenities such as food and shopping. The township land ownership features 43% commercial forest land and 16% publicly owned land, leaving the remaining 41% as privately owned land.

The economic history of Sands Township, like that of the region, is closely related to natural resources and features. With approximately 87 percent of the township's land area classified as forested, logging and lumbering, these industries maintain their historical importance in the local economy. The proximity and abundance of forest products provide much of the raw material utilized in commercial enterprises.

The economic well-being of the township reflects the activities associated with the Marquette-Negaunee-Ishpeming urban center.

STRAWBERRY LAKE

Many township residents are employed in or nearby the City of Marquette and have chosen to live in the township's more rural setting.

The majority of the township's commercial activities occur along M-553 and CR 480. The 'Crossroads' is the intersection in which these two highways meet and features the most concentrated commercial development in the township. This intersection has been a popular topic within community discussions as there is a desire to connect the township to the recreational resources to the north.

In addition to DNR properties and county forest, the township also includes the Sands Plains Area, primarily made up of commercial forest and state lands serving as a popular recreation destination for motorized and non-motorized trail users alike. The township hall and adjacent park is a popular destination for locals as well as a destination for pickleball players throughout the county. Each of these recreation amenities is summarized in the following chapters with extra attention given to the township owned and managed facilities.

BLUEBERRY RIDGE SKI TRAIL

COMMUNITY DATA AS IT RELATES TO RECREATION

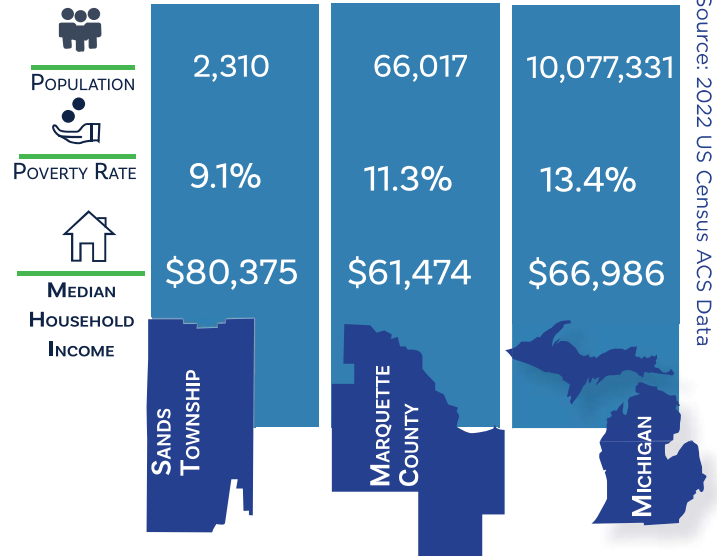

Assessing the number of people in the community and their demographic characteristics helps planners and policy makers determine the needs of the community. For recreation planning, population data is useful when applying recreation standards to a community.

While the population in Sands Township had decreased significantly from 1990 to 2000 the numbers have increased in recent years. The significant decline was likely in part due to the closing of the KI Sawyer Air Force Base in 1995. The more recent population increase is partially due to lower housing costs in comparison to the township's neighbor to the north, the City of Marquette. The township also has a higher median household income than other Marquette County communities.

Understanding the composition of the population by age will help leaders plan for the types of recreation and facilities that will maximize opportunity for as many residents as possible. In the pie charts shown below, Sands Township resident's ages are slowly shifting into an older demographic. This shift to an aging demographic is apparent throughout much of Michigan's upper peninsula. It is curious the percent of under 25 year olds has remained at 33% over the last couple of decades, indicating no change in the percent of residents in the township's youngest demographic.

Some measures being taken to ensure aging populations and younger generations have access to recreation opportunities is by developing accessible facilities that can be enjoyed year round. This includes trail development and necessary measures to groom or remove snow from parking areas and transition spaces to access paths and other winter site amenities.

3 ADMINISTRATIVE STRUCTURE

The National Recreation And Park Association [NRPA] assembles annual reports featuring park metrics throughout the nation. The goal of this document is to help local park systems identify the optimal mix of facilities and programming for their community. Key 2023 findings are listed below:

Mission:
To advance parks, recreation, and environmental conservation efforts that enhance the quality of life for all people.

Pillars:
Health & Wellness
Social Equity
Conservation

3,759 Residents per playground

10.8 acres of parkland for every 1,000 residents

Residents per Park: **2,287**

8.9 Full-Time Equivalent Employees (FTEs) per 10,000 Residents

\$218B Economic Activity related to parks:

14 miles of silent sport trails

Key programming activities include themed special events, social recreation events, team sports, fitness enhancements classes, and health + wellness education.

BUDGET AND SPENDING

The recreation budget is the responsibility of the Sands Township Board, who maintains fiscal control through approval of expenditures. During the past five years, the Township Board has spent in excess of \$136,000 for recreational purposes. During this time, the board has helped maintain existing facilities with minor improvements as funding allows.

The annual totals presented below include all recreation expenses including wages, programming and capital improvements paid with Township funds:

2023	\$ 55,421.60*	* A Parks and Recreation Millage was approved in February 2024 for a period of 6 years, including 2024-2029. It is a millage rate of 0.4688 and will generate approximately \$56,885 its first year.
2022	\$ 17,943.40*	
2021	\$ 21,730.61*	
2020	\$ 16,256.36*	
2019	\$25,004.42*	

It is the hope of the Township that the millage will help offset the costs of upkeep of parks and facilities. Applying for grant funds can help to accomplish larger projects and programming initiatives.

The facts on the following page feature information gathered by the National Recreation and Parks Association for their 2023 annual report. This data illustrates many of the beneficial facets of having a robust park and recreation system within one's community.

ORGANIZATIONAL STRUCTURE

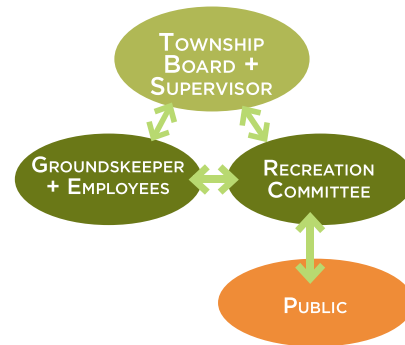

The Township has significantly improved and expanded recreational facilities and programs in recent years. The 5-member Sands Township Board is an elected governing body responsible for the formal adoption and implementation of the recreation capital improvement program. The Board strives to assure the limited funds available are spent on projects that produce maximum benefits to the entire community. The Board continues to look to the recreation committee for input and guidance.

In 2004, recognizing the importance of recreational programs within Sands Township, Sands Township Board established a recreation committee for parks and recreation with representation from the Northern, Southern, Eastern, and Western portions of the Township. One Township Board member is appointed to serve as a liaison to the committee.

The goals of the recreation committee are:

- 1 | Study existing services and indicate needs for eliminating facilities or programs
- 2 | Educate the public on the value of parks and recreational services
- 3 | Raise funds for specific recreational projects
- 4 | Formulate a township recreation plan for adoption by the township board
- 5 | Sponsor cooperative special programs
- 6 | Serve as a clearinghouse for citizen's suggestions, reactions and opinions and present to the township board

Maintenance of the facilities is performed by township employees and volunteer labor. The Township has part-time groundskeepers who are responsible for maintenance at the various township-owned facilities. During the summer, the township board uses seasonally hired workers to perform needed work at Township owned properties.

The Board is ultimately responsible for the maintenance of the recreation facilities. The Township Board plans and directs the work. Any needed expenses for supplies come from the township's recreational facilities fund, as well as the general fund.

Sands Township operates the Strawberry Lake Recreation Area on a seasonal basis. The park is maintained by the groundskeeper. An organizational chart is depicted above and a photo of the existing building at Strawberry Lake is on the right.

VOLUNTEERS

COMMUNITY VOLUNTEER ORGANIZATIONS

The Sands Township Recreation Committee is made up of volunteers and several of the local recreation clubs complete volunteer trail maintenance and other tasks within the community, but no formal volunteer agreements are in place. Informal volunteer efforts are also frequent within the trails systems. These include trail brushing, invasive removal, hazard tree mitigation and general site clean up.

The township does not have any formal relationships with schools in the area as children attend different districts due to their positioning between Gwinn and Marquette.

THE NATURAL ENVIRONMENT LANDSCAPE TYPOLOGIES

The natural features of Sands Township are a reflection of the soils and geology that make up their foundation. The images on this page feature a selection of landscape typologies that are defined by the characteristics within the landscape including vegetation type, water, terrain, and the level of development.

These layers are analyzed in the pages that follow. Finding the right balance of development and preservation of natural resources within a community is key to maintaining a long lasting beautiful place for generations to explore and appreciate.

GEOLOGY + SOILS

Geology and soils are a landscape's foundation providing the groundwork for all forms of life. Generating an understanding of these baseline layers is critical to developing a smart strategy for future development and preservation of an area.

The uppermost materials were deposited by glaciers thousands of years ago. These define most topographical features including lakes, valleys, hills, and streams. Below is a summary of a soil survey for the township sourced from the U.S. Department of Agriculture Soil Conservation.

Soil associations located on bedrock controlled moraines:

- Keewaydin-Michigamme-Rock outcrop Association consists of very deep and moderately deep, nearly level to very hilly, well-drained soils and rock outcrop.
- Schweitzer-Michigamme-rock outcrop Association consists of very deep and moderately deep, gently to very hilly, well drained loamy soils and rock outcrops.
- Pits-Dump Mine-Slickens Association consists primarily of former pits and dump mines.
- Kalkaska-Ishpeming-rock outcrop Association consists of very deep to moderately deep, gently rolling to very hilly, somewhat excessively drained sandy soils and rock outcrops.

Soil associations found on till floored lake plains and dissected moraines:

- Munising-Yalmer Association consists of very deep, nearly level to gently sloping, moderately well drained loamy, sandy soils.
- Keweenaw-Kalkaska-Waiska Association consists of very deep, moderately sloping to very steep, well-drained, somewhat excessively drained and excessively drained, sandy soils.
- Garlic-Alcona-Voelker Association consists of very deep, moderately sloping to steep, well-drained, sandy, loamy soils.

Soil association found on outwash plains, terraces and beach ridges:

- Grayling Association consists of very deep, nearly level to very hilly, excessively drained sandy soils.

Soil association found on disintegration moraines:

- Rubicon-Keweenaw Association consists of very deep, gently undulating to very hilly, excessively drained and well drained sandy soils.

HYDROLOGIC SOIL GROUPS:

- **GROUP A** - DEEP, WELL DRAINED SANDS OR GRAVELLY SANDS WITH HIGH INFILTRATION AND LOW RUNOFF RATES.
- **GROUP B** - DEEP WELL DRAINED SOILS WITH A MODERATELY FINE TO MODERATELY COARSE TEXTURE AND A MODERATE RATE OF INFILTRATION AND RUNOFF.
- **GROUP C** - CONTAIN A LAYER THAT IMPEDES THE DOWNWARD MOVEMENT OF WATER OR FINE TEXTURED SOILS AND A SLOW RATE OF INFILTRATION.
- **GROUP D** - HAVE A VERY SLOW INFILTRATION RATE AND HIGH RUNOFF POTENTIAL. THIS GROUP IS COMPOSED OF CLAYS THAT HAVE A HIGH SHRINK-SWELL POTENTIAL, SOILS WITH A HIGH WATER TABLE, SOILS THAT HAVE A CLAY PAN OR CLAY LAYER AT OR NEAR THE SURFACE, AND SOILS THAT ARE SHALLOW OVER NEARLY IMPERVIOUS MATERIAL.
- **GROUP A/D** - HAVE A VERY SLOW INFILTRATION RATE DUE TO A HIGH WATER TABLE BUT WILL HAVE HIGH INFILTRATION AND LOW RUNOFF RATES IF DRAINED.
- **GROUP B/D** - HAVE A VERY SLOW INFILTRATION RATE DUE TO A HIGH WATER TABLE BUT WILL HAVE A MODERATE RATE OF INFILTRATION AND RUNOFF IF DRAINED.
- **GROUP C/D** - HAVE A VERY SLOW INFILTRATION RATE DUE TO A HIGH WATER TABLE BUT WILL HAVE A SLOW RATE OF INFILTRATION IF DRAINED.

WATER + CLIMATE

There are a handful of smaller lakes scattered throughout the township, most of which are surrounded by corporate lands. Strawberry Lake, centrally located in the township, is owned by the township. Lake Pelissier, in the northern part of the township, is the largest lake. The East Branch of the Escanaba and Carp are the major rivers running through the Township.

Sands Township is home to the Sands Plains Aquifer considered to be one of the highest quality water sources in Michigan. This aquifer provides groundwater to thousands of individuals in Sands Township and surrounding townships. The Sands Aquifer is a major source of the water supply in the Chocolay Watershed and streams in the local area.

Sands Township has a humid continental climate that is heavily influenced by Lake Superior, with cold winters and humid cool summers. The lake helps keep temperatures cool in summer and generally moderate in winter. The temperature in the township ranges from the 90's to the negative teens, with a mean annual temperature of about 42 degrees Fahrenheit. Total precipitation averages approximately 34 inches per year, with the wettest month in September and the driest month in February. The winter snowfall in the township averages between 90 and 110 inches annually.

TOPOGRAPHY

Sands Township is primarily composed of upland areas with rivers and streams criss-crossing through the landscape. The Blueberry Ridge Pathway System and Thunder Valley Equestrian Trails capitalize on this rolling terrain and picturesque views these elevation changes offer. The eastern and northern portions of the township offer the most rugged topography with the terrain leveling out moving south.

The highest elevation point is about 1440ft above sea level (838ft above Lake Superior), just west of Pelissier Lake. The lowest elevation is about 700ft above sea level (98ft above Lake Superior) in the north eastern corner of the township near Silver Creek.

LAND COVER + WILDLIFE

Sands Township is largely undeveloped with “The Crossroads” where Hwy 553 and Hwy 480 intersect as the most developed zone. The remainder of the landscape is primarily covered in deciduous, conifer and mixed forest. There is some open shrub scrub land as well.

These landscape layers support a variety of recreation types from forested trail systems to more open plains areas. Much of the Sands Township landscape is criss-crossed by motorized and non-motorized trail routes.

The rural character of the region provides an expansive landscape for wildlife. Common sightings include bear, deer, moose, grey wolf, smaller mammals, song birds, raptors, and an abundance of fish within lakes and rivers. The Kirtland’s warbler, a songbird recently delisted from the threatened and endangered species list due to recovery, has been spotted throughout the Jack Pine forests in the region. Below is a summary of rare and endangered species that may also occupy the township landscape.

NORTHERN LONG-EARED BAT

The Information for Planning and Consultation site hosted by the U.S. Fish and Wildlife Service notes the potential existence of several threatened and endangered species within the Upper Peninsula. Measures taken to preserve habitat and accommodate these species are critical to maintaining their existence. Water levels along the coastline can impact nesting sites for the Red Knot. Lynx live in boreal forests that often receive heavy snowfall and are home to their food source, snowshoe hare. White nose syndrome threatens the Northern Long-eared Bat. The biggest culprit threatening the Monarchs seems to be the disappearance of milkweed. It is critical communities consider these threatened and endangered species when planning for development.

TRAILS

The Sands Township region hosts trails for a variety of user types. The Thunder Valley Equestrian trails are a quiet destination for local and visiting equestrians while Blueberry Ridge Pathway System serves as a winter destination for cross country skiing and snowshoeing. ORV and snowmobile trails are abundant on Commercial Forest (CF) lands connecting the township to neighboring communities.

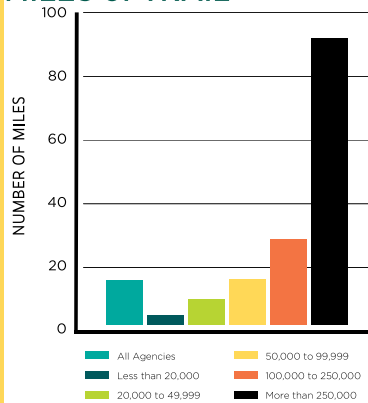

Despite the abundance of trails within the region, there is still room to increase the network. Many survey respondents highlighted a need for off road multi-use and bike paths as well as a desire for a mountain bike trail system within the township. Survey respondents also noted the need for complete township trail maps including motorized/non-motorized trails in the Sands Plains region. With a recent proposal to install solar in approximately 520 acres of this region, motorized trail users expressed a need to have permanent trails.

Below is an NRPA chart featuring average miles of trail per population range. Sands has many more miles than the average community and proves to be a destination for non-motorized and motorized trail users alike.

5 RECREATION INVENTORY

STANDARDS FOR RECREATION

According to the Michigan Statewide Comprehensive Outdoor Recreation Plan (SCORP) 2023-2027, Cities/Townships/Villages serve as a recreation provider responsible for the operation and maintenance of their parks and facilities. These may include nature preserves, nature centers, community centers, and public water access sites. They may also provide public recreation programming which may include but is not limited to classes, youth sports, and special events all using outdoor public recreation facilities.

The National Recreation and Park Association (NRPA) has developed a scale to help measure an existing recreation system’s park facilities and provide a baseline standard for equitable park access within a community. A typical park and recreation system offers one park for every 2,323 residents served, with 10.4 acres of parkland per 1,000 residents. Due to its lower density population Michigan’s Upper Peninsula trends toward having a higher acreage of parkland per resident.

PARK TYPE	SERVICE AREA (RADIUS)	SIZE (ACRES)	ACRES/1,000 POP	PARKS (ACRES)	USES
Mini-Park	<1/4mi	1 or less	0.25 to 0.5	0.5 to 1 <i>Currently:</i> --	Specialized facility serving a concentrated or limited population
Neighborhood Park	1/4 to 1/2mi	15+	1 to 2	2 to 4 <i>Currently:</i> --	Hosts intense recreation activities: Play, sports fields/courts, picnicking etc.
Community Park	1 to 2mi	25+	8 to 10	16 to 20 <i>Currently:</i> 10	Diverse environmental quality; may include sports complexes or more natural forms of outdoor recreation
Regional Park	1 hr drive	200+	5 to 10	10 to 20 <i>Currently:</i> 120	Area of natural quality for outdoor recreation; boating, swimming, camping, trail use etc.
School Park				<i>Currently:</i> --	Park associated with an educational institution

Sands Township has a unique mix of park and recreation property as it hosts the largely unimproved Strawberry Lake Area and surrounding community forest. This has the potential to serve as a recreation destination for the region. The township is also known for its Township Hall Park Complex hosting courts for multiple sport activities, a shelter, playground and office complex with a gym. Community programming and other recreation opportunities will be explored in greater detail on the following page.

RECREATION INVENTORY PROGRAMMING

Sands Township is the home of Marquette County Fairgrounds and hosts the annual county fair event. The Superiorland Ski Club has an agreement with the township to manage the warming hut at Blueberry Ridge. Blueberry Ridge also serves as a location for Superiorland Ski Club's ski cats lessons.

Other recreation related clubs that do not have a direct affiliation with the township include:

- Superiorland Pickleball Club
- Sands Speedway and Sandstormers groups
- Hiawathaland Snowmobile Club
- Upper Peninsula Animal Welfare Shelter and Dog Park (UPAWS)
- The UP 200 dog sled race runs through Sands Township during the Jack Pine 30. This is an annual event and is well-attended.

Below is a summary of the 2023 NRPA findings reflecting the types of facilities communities offer and the associated number of residents per facility. As Michigan's Upper Peninsula has a very low density population compared to most other regions in the country, there is often a greater number and type of facilities within a population. The facilities Sands Township offers its residents are highlighted below. The facilities the township has yet to offer that would be the most common for a low population community include a baseball diamond and a multi-use/soccer field.

STRAWBERRY LAKE TOWNSHIP PARK

Strawberry Lake is a picturesque little lake located just to the west of the Marquette County Fairgrounds and Hwy M-553. It is open from May 1st through September 30th of each year and hosts a two track entrance road and small dirt parking area with signage and a few picnic tables overlooking the lake. The original caretaker's residence is located to the west of the day use area but is currently uninhabited. Potential projects listed by community members and recreation committee participants included adding hiking or equestrian trails throughout the forest around the lake, improving the access road and parking area, making the site more accessible with a place to launch kayaks or canoes and perhaps a swimming beach.

GRANT HISTORY
1985, TF1061:
(withdrawn)

RECREATION AREAS: OWNED + MANAGED BY OTHERS

15 MILES OF TRAILS BLUEBERRY RIDGE PATHWAY SYSTEM

This MDNR owned ski/hiking trail system is located just south of the “Crossroads” intersection of M-553 and CR-480 within the Gwinn State Forest Management Unit. The system hosts a 1.7 mile lighted ski loop in winter months as well as several other groomed ski trails. It is very popular among nordic and skate skiers alike.

GRANT HISTORY

Sands Township partnered with the DNR to lease a portion of the property at one of the park's trailheads to develop an accessible warming shelter with restrooms.

In 2013 an \$83,700 Land and Water Conservation Fund Grant was awarded to the township to fund the warming hut and was later paired with a \$20,000 DNR Partnership Match Grant. The ski club and local individuals, organizations and businesses donated the remaining funds needed to meet the total figure of \$190,000. The installation was complete in 2016.

MARQUETTE COUNTY FAIRGROUNDS

This parcel hosts the county fair each August. Facilities include: Exhibition building, American Legion building, 4-H building (with kitchen and restroom), horse show arena, two cattle show rings, horse barn, poultry and small animal building, large livestock building, office building (with a kitchen and restrooms), barrier-free restroom/utility building, two storage structures, power outlets, two wells, large lighted parking area, outside speaker system, dirt race track, mud drag strip, paved go-cart track, large carnival area, outside horse stalls, two outdoor pavilions, and portable bleachers. All buildings are used for storage during the winter months. The property/facility is privately owned.

7,000 ACRES ESCANABA RIVER STATE FOREST

The DNR maintains more than 7,000 acres of forested lands in the township.

215 ACRES THUNDER VALLEY EQUESTRIAN PATHWAY

This trail system positioned just south of the Blueberry Ridge Pathway System is a local equestrian favorite. This is DNR owned land featuring an 8.8 mile loop trail through undulating terrain and oak woodlands.

SANDS/GWINN TRAIL 8

This regional trail connects from Nordeen Park in Gwinn, through the K.I. Sawyer area into the Blueberry Ridge Pathway System. This is not a formal hard surface trail as others like the Iron Ore Heritage Trail are, but a less developed trail used by a variety of motorized and non-motorized trail users alike.

SANDS SPEEDWAY

This is a privately owned speedway with a 1/4 mile track open June-August of each year. It hosts very well attended regular races. Additional details can be found at: <https://sandsspeedway.com/about/>

UPAWS PAWS PARK

Owned and operated by UPAWS, this dog park is located behind the UPAWS facility and requires a permit for access. Annual passes per dog are \$35, a family pass (up to 4 dogs) is \$50. Seasonal permits are available from November to April at \$20 per individual dog, \$35 for a family pass (up to 4 dogs). The operational hours are 7am-9pm in Summer, 8am-7pm in Winter.

NOQUEMANON (NTN) SOUTH TRAILS

As the name indicates, this network of non-motorized, primarily mountain and fat bike designed trails is located in South Marquette along M-553. The trails are built and managed by NTN a 501C-3 non-profit on properties owned by various land owners. The organization and accompanying lands host a variety of local recreation clubs, races and events. This trail network has become an icon for the region and is a destination for visitors from around the country. A trail map and additional resources can be found here:

<https://noquetrails.org/>

RIPPLING RIVER RESORT

This privately owned resort and campground is situated along the Carp River between Marquette Mountain and NTN South Trails. It serves as lodging and a starting point for visitors coming to the region to recreate and enjoy the amenities the region has to offer. The resort also hosts many events and concerts. The website is: <https://www.ripplingriverresort.com/>

IRON ORE HERITAGE TRAIL (IOHT)

Per the trail website (<https://ironoreheritage.com/>):

"The Iron Ore Heritage Trail is a 47-mile, year round, multi-use, interpretive trail that crosses the Marquette Iron Range in Michigan's Upper Peninsula. Call us the outdoor linear museum where you exercise your body and mind. Those who bike, walk, run, hike, ORV, snowmobile, cross country ski, birdwatch, and/or wander will find a section of trail perfect for your activity."

This trail serves as a regional destination within the county running through Chocolay Township, Marquette, Marquette Township, Negaunee Township, Negaunee, Ishpeming and beyond. It is funded in part by a millage. The potential of creating a connector trail to the IOHT was discussed in recreation committee meetings and community survey responses during the planning process.

MARQUETTE MOUNTAIN

Located just a couple miles south of downtown Marquette along M-553, Marquette Mountain is a recreation destination open year round. Trails connect to the NTN South Trails and the ski hill is open in winter months. This facility is privately owned. <https://marquettemountain.com/>

COMMENTS + ISSUE SCOPING PUBLIC INPUT

A community survey was launched in May of 2023. The survey was shared via multiple methods including social media, the township website, and paper copies stationed at the township hall. 315 survey responses were received.

The feedback garnered was extremely informative and helped in generating recreation values, goals and priority improvements for the community. The pie charts to the right illustrate the age distribution of survey participants and the community in general. A larger percent of 26-45 year olds responded and smaller proportions of the oldest and youngest demographics. It is assumed parents responded with their child's interests in mind.

In addition to the surveys, a community recreation workshop was hosted in the evening of Thursday October 19th. Roughly 10-15 participants attended adding their recreation goals and project ideas to a series of interactive presentation boards. They were able to illustrate what action items from the last 5-year plan should remain a priority moving forward as well. Several discussions helped to illuminate the evolution of trail user types within the township and the potential for overlap between certain user groups. The township owned forest area as well as the adjacent Strawberry Lake property were discussed as potentially receiving some all-season non motorized trail development for hikers, snowshoers, and equestrians.

The following page illustrates the number of survey participants who responded with specific recreation activities they participated in. The most frequent responses were hiking, skiing and snowshoeing, biking, ORV, SxS and Dirt Biking and visiting the playground.

VALUES, GOALS + OBJECTIVES

STATEWIDE COMPREHENSIVE OUTDOOR RECREATION PLAN

Michigan’s Statewide Comprehensive Outdoor Recreation Plan (SCORP) serves as the backbone for recreation planning within the state. Every five years new surveys are administered, sites studied and goals and objectives created. Below is a summary of the methodology, goal, and objectives in the plan.

PLANNING METHODOLOGY

Survey generated and distributed to gather responses from a wide variety of residents and visitors that accurately reflected the general population of the area.

Recreation Participation:

Factors to consider (Income, accessibility, age and health) that limit opportunities for some to recreate.

Motivators:

Mental health and physical benefits are key reasons participants recreate.

Land Use:

Recreation opportunities in and around more urban areas are needed.

Resources:

Participants are more likely to utilize opportunities accessible to a large audience (paved trails, campsites, and other trail types).

Information Seeking Technology:

Welcome and visitor centers are great resources but technological tools could also help mainstream information.

Barriers:

Safety, access, costs associated with, too many crowds, lack of time, or poorly maintained facilities all prevent community members from recreating.

Physical Activity:

Prioritize physical health for all Michigan residents.

“THE TOTAL NET ECONOMIC VALUE OF OUTDOOR RECREATION IN MICHIGAN WAS ESTIMATED AT \$165 BILLION.”
-2023-2027 SCORP PLAN

SCORP GOAL

Ensure that Michigan’s outdoor recreation assets are equitably distributed, developed and managed to provide convenient and welcoming access to the outdoors for healthful, outdoor physical activity; and while sustaining our lands, waters and wildlife for current and future generations, drive broad-based economic and quality-of-life benefits to people and communities.

-SCORP 2023-2027

THE MAIN OBJECTIVES OUTLINED IN THE CURRENT SCORP PLAN:

IMPROVE COLLABORATION:

- Create more opportunities for cross-agency collaboration on recreation
- Explore opportunities for regional analysis and connection to regional planning efforts
- Enhance data access and digital tools for measuring recreation use across management entities

IMPROVE AND EXPAND RECREATIONAL ACCESS:

- Utilize SCORP survey and focus group data to better understand recreation demand
- Communicate the full portfolio of grants and funding available to communities to support outdoor recreation
- Encourage long-term investments that address issues of technology, climate change and resiliency

ENHANCE HEALTH BENEFITS

- Model public-private partnerships and collaborations to activate and steward recreational assets
- Improve interagency collaboration to measure and deliver public health benefits from additional investment in infrastructures and programs supporting recreation

ENHANCE PROSPERITY

- Model and use new data to communicate economic value of outdoor recreation
- Support continued engagement with new users and identify gaps and barriers

VALUES + GOALS

The values generated with help from the responses summarized in the previous chapter defined parks and recreation goals for the community. The Sands Township parks and recreation values are:

- **We VALUE having ready access to beautiful wide open spaces.**
- **We VALUE having safe and clean community parks.**
- **We VALUE having a variety of trails for all user types.**
- **We VALUE having a variety of family and kid friendly recreation opportunities.**

Community members were then asked what they would like to see change regarding recreation within the township. A summary of the proposed changes is featured on the last two pages of this chapter. Combining these perspectives of community recreation values with desired improvements allowed the planning team to formulate a series of parks and recreation goals. These include:

Goal 1: Continue to prioritize and support recreation related improvements within the community.

Goal 2: Promote non-motorized and motorized trail access and connections between neighboring communities, public properties, and township owned facilities.

Goal 3: Provide clean, safe facilities where community members of all ages and ability levels can recreate year round.

The next step was to generate a series of objectives and action items that would help guide the community through the five year planning window and beyond. The following page features a diagram of the township's recreation values, goals and objectives illustrating the cyclical nature of this process.

GOAL 1

Prioritize and support recreation related improvements within the community.

OBJECTIVES

- » Develop a recreation plan outlining community goals and priority projects.
- » Partner with community organizations to apply for funding, maintain and develop recreation related improvements
- » Support the culture of outdoor recreation through community outreach, programming and partnerships.

GOAL 2

Promote non-motorized and motorized trail access and connections between neighboring communities and public properties.

OBJECTIVES

- » Create and enhance trails that tie the community and surrounding municipalities together.
- » Work with land owners, community members, MDOT and local clubs to define routes and prioritize phasing for trail maintenance and connections.
- » Develop a strategy for funding the maintenance and improvements made to trail infrastructure within the community.

GOAL 3 | Provide clean, safe facilities where community members of all ages and ability levels can recreate year round.

OBJECTIVES

- » Apply for funding to make Strawberry Lake a more accessible site for everyone, including the addition of trails to explore the extensive forested property the township owns.
- » Continue to maintain and adapt the township park complex to fit with desired recreation needs.
- » Ensure existing facilities and infrastructure at township owned parks are safe and accessible for all .

ACTION PLAN COMMUNITY PRIORITIES

IMPROVE PARKING
AREA

ADD HIKING TRAILS

ADD BIKE TRAILS

ADD EQUESTRIAN
TRAILS

As a facet of the community survey and then again at the public recreation workshop, community members were asked to provide their ideas and opinions for park and recreation projects within the community.

Strawberry Lake received its own question highlighting potential options for improving access or making it a more beneficial resource for the community. The bar graph below illustrates the responses gathered during the survey process.

Requests for additional trails were a top priority as well as parking area improvements.

The chart on the following page reaffirms the community's desire to see additional trail work.

Survey and workshop participants were then asked to note what they would like to see change regarding parks and recreation within the township. The image charts on pages 44-45 illustrate the specific changes mentioned in the community surveys with the numbers in the top right hand corners noting how many people noted these desired changes. Rising to the top, again, is the development of trails including both motorized and non-motorized trail opportunities. The need for additional pickleball/tennis courts was regularly expressed as well as the desire for a multi-sport field and playground area updates.

PRIORITY PROJECTS

This Action Plan on the following pages attempts to channel the many ideas provided via community input, recreation board and staff feedback and develop a list of park and recreation improvements within the coming years. By no means is this a comprehensive list as interests, demographics, and the environment are constantly evolving. The township will continue to revisit its recreation plan within the future and amend this list as needed.

The past 5-year Recreation Plan included quite a few projects that have yet to be realized. These were reintegrated into the list of potential projects as well.

NATURE TRAIL + PLAY AREA

ACCESSIBLE PLAY FEATURE FOR ALL

GOAL #1 Prioritize and support recreation related improvements within the community.

RECREATION PROGRAMMING

- Host additional community recreation events including the community fishing day, introducing children to fishing
- Continue to support community efforts to introduce people to different forms of recreation including Superior Ski Club's Ski Cats Program often hosted at Blueberry Ridge
- Encourage community exercise programs such as yoga that utilize the existing community facilities

STRAWBERRY LAKE

- Complete Strawberry Lake site access and maintenance improvements including:
- » Accessible parking area + road improvements
 - » Accessible fishing and picnic spaces
 - » Consider adding a nature play component for kids
 - » Nature trail development for all season's use
 - » Open park for longer season
 - » Add rustic camping

SANDS TOWNSHIP PARK

- » Continue to update park facilities to accommodate changing recreation needs and priorities; ie consider adding a multi-use play field, update play equipment and restroom, add sport courts, Add loop trail with exercise stations, add pump track, clear viewshed to roadway and add lighting to extend open hours and feelings of safety
- » Support and encourage community groups to seek funding for and define maintenance strategy for park improvements and upkeep. This could include the installation of additional pickleball courts, community garden plots, and playground improvements

GOAL #2

Promote non-motorized and motorized trail connections between neighboring communities and public properties.

TRAILS

- Identify any user or traffic conflicts along existing trail corridors and correct them
- Provide additional trailheads if needed
- Notify trail users of proper trail etiquette and clearly mark user types allowed on trails
- Work with the MDNR and others to determine proper placement for ORV and Snowmobile trails throughout the township
- Work with neighboring communities, land owners and transportation departments to create a regional multi-use trail connection
- Establish a pet friendly trail area
- Promote year round trail opportunities
- Create safe crossing for pedestrians, bikes and motorized trail users alike at the Crossroads intersection

EXAMPLE ROAD CROSSING

MULTI-USE CONNECTOR TRAIL

NATURE TRAIL

GOAL #3

Provide clean, safe facilities where community members of all ages and ability levels can recreate year round.

SANDS TOWNSHIP PARK

- Work with local clubs to ensure everyone has opportunity to utilize community facilities (this includes courts and gym)
- Make updates to facilities that are not accessible
- Provide programming for community members who may not otherwise have the opportunity to experience various forms of recreation. This may include partnering with local businesses or clubs to provide rental equipment and instruction.

Public comment period opening soon for Sands Township 5-year recreation plan

SANDS TOWNSHIP, Mich. (WLUC) - [Sands Township](#) is working on its five-year recreation plan and now, you can weigh in. A 10-member recreation committee has come up with a draft of the five-year plan after collecting data from a survey.

Next week, the 30-day public comment period will be open for residents to leave thoughts on the plan online. The township supervisor says recreation is an important part of Sands Township.

"Recreation is a very large component of Sands Township," Sands Township Supervisor Darlene Walch said. "A lot of land is devoted to that. There are hiking trails all over the Sands Plains, snowmobile trail 8 runs through here, we have a playground and the tennis courts, pickleball courts, basketball courts, so we do try to make sure that we have all of those recreation areas listed in the plan."

A public hearing for the recreation plan is scheduled for Tuesday, July 30 at 7 p.m. at the Sands Township Hall.

Q1 We have received comments regarding the Superior Solar/Cleveland Cliffs Land Transaction Application: <https://www.michigan.gov/dnr/managing-resources/real-estate/superior-solar-and-cleveland-cliffs> This 5-year township recreation plan focuses on township owned parcels and does not address recreation on privately owned property. If you have comments regarding the Superior Solar/Cleveland Cliffs Land Transaction please comment via this DNR provided email address: DNR-SUPERIORSOLAR-Comments@Michigan.gov. The township is open to receiving comments regarding future opportunities to improve trail access for all users on township owned properties or through acquisition if determined to be a priority. Please provide your ideas for the township.

46	I value that there are designated horse trails that don't allow atvs. The majority of trails we ride on can be dangerous with kids and horses can be spooky from fast moving or loud machines in the woods or along the trails on the road.	5/18/2023 3:44 PM
47	The diversity of recreational opportunities within a short distance of each other. Case in point, Strawberry Lake and the Marquette County Fairgrounds are right next to each other but worlds apart in the type of recreational experience.	5/18/2023 3:05 PM
48	Open spaces and availability of bike and ORV trails.	5/18/2023 1:44 PM

Q7 What park or recreation sites would you like to improve and how?

Answered: 235 Skipped: 78

#	RESPONSES	DATE
1	More hiking - no biking trails.	7/1/2023 9:55 PM
2	We are happy with the opportunities we now have.	6/30/2023 12:40 PM
3	The park near the township hall is great. More seating would be nice.	6/28/2023 6:29 PM
4	Mountain biking trails and horse back trails.	6/28/2023 12:50 PM
5	Camp grounds that are year around.	6/28/2023 9:46 AM

6	Keep all lights functional in lighted ski loop.	6/27/2023 8:07 PM
7	Not sure	6/27/2023 6:14 PM
8	Add more indoor and outdoor pickleball courts, add more paved or hard pack bike/walking trails not on roads	6/26/2023 2:22 PM
9	Trail networks, camping areas, hiking trails, canoeing	6/27/2023 10:47 PM
10	More and permanent pickleball courts	6/27/2023 6:05 AM
11	Campground	5/29/2023 7:04 PM
12	STRAWBERRY LAKE, AREA TRAIL ACCESS FOR MOUNTAIN/FAT BIKING	5/24/2023 3:07 PM
13	Our community is in need of an indoor sports complex to be used mainly during the winter.	5/24/2023 8:22 AM
14	some opportunities for mountain biking.	5/23/2023 11:24 AM
15	Its pretty good.	5/23/2023 10:11 AM
16	All good	5/22/2023 11:53 AM
17	More information on Strawberry Lake.	5/21/2023 10:53 PM
18	Unsure	5/21/2023 8:19 PM
19	I'd like to see that gun range come to fruition.	5/20/2023 1:08 PM
20	If there was an area of Blueberry Ridge that was dog-friendly during the winter months, I would snowshoe there frequently.	5/20/2023 1:00 PM
21	None. I think Sands township does a great job with our recreation sites.	5/20/2023 12:54 PM
22	Playground could have some ideas that are in better shape. New basketball hoops.	5/20/2023 9:10 AM
23	Bigger and better of course	5/19/2023 9:43 PM
24	I've never heard of Strawberry Lake; maybe make these places more known so we can enjoy them.	5/19/2023 9:00 PM
25	We've been very happy with your playground	5/19/2023 8:52 PM
26	Not sure	5/19/2023 7:39 PM
27	Blueberry Ridge is excellent. No change. Need to visit the others more to know	5/19/2023 5:57 PM
28	I feel you all do a great job on up keep.	5/19/2023 4:06 PM
29	Better bathrooms at Blueberry Ridge. Also a few benches along the trail.	5/19/2023 3:24 PM
30	Love for more loops to be lit at blueberry	5/19/2023 10:38 AM
31	Fitness/exercise trails, dog park, make everything nice matching colors so it is attractive	5/18/2023 10:39 PM
32	The Sands Park is great, but could use some different types of equipment for different types of play. Also the pavilion would be really good to rent if it had a bathroom	5/18/2023 9:33 PM
33	I would like to know more about the usage rules of each trail system.	5/18/2023 8:56 PM
34	More grooming at Blueberry Ridge	5/18/2023 7:57 PM
35	Any	5/18/2023 7:20 PM
36	Sands township park play scape is rather small	5/18/2023 5:23 PM
37	I would like to have more horse trails put in and would love trails the quality of the blueberry trails. More people will travel to horse trails with more miles of riding.	5/18/2023 3:44 PM
38	I dislike that the Strawberry Lake access is gated until May 1st and closes at the end of September when the lake itself, being a designated Type D trout lake, is open to fishing from the last Saturday in April until October 31st.	5/18/2023 3:05 PM
39	Bike trails. There are no defined bike or e-bike trails or connecting corridors. There should be safe bike path / routes from: IN SANDS TOWNSHIP 1 KI Sawyer along Kelly Drive to M-553	5/18/2023 1:44 PM

Sands Township Recreation Survey

	then North to Crossroads - side paved roads and or utilities right of way could be used. IN CONJUNCTION WITH FORSYTH TOWNSHIP 2 KI Sawyer along M-94 to M-553 then North to Gwmn.

41	None	5/18/2023 4:17 AM
42	None	5/18/2023 12:10 AM
43	Unsure	5/17/2023 11:46 PM
44	More playground equipment and indoor winter opportunities	5/17/2023 10:28 PM
45	I would love to see the park continue growing	5/17/2023 6:48 PM
46	The wood chips are so sharp!!	5/17/2023 6:48 PM
47	There are a few that need updates so I can't pick just one	5/17/2023 11:37 AM
48	Not sure	5/17/2023 11:10 AM
49	I'd love to see a community garden.	5/17/2023 9:54 AM
50	Nothing	5/17/2023 8:38 AM
51	Sands township Park - upgrade equipment? Larger pavilion for gatherings. Soccer field	5/17/2023 8:20 AM
52	Skate park for older kids	5/17/2023 6:45 AM
53	More pickleball courts	5/17/2023 6:28 AM
54	?	5/17/2023 6:18 AM
55	The indoor gym is a vital asset for young kids in coldest months. It would be nice to have open gym times or at least available time slots. Currently the gym is tied up nearly 100% of the time. Please consider more space and/or a different scheduling strategy.	5/17/2023 12:12 AM
56	Park, keep adding to it	5/16/2023 10:26 PM
57	A field or rec for teens	5/16/2023 10:15 PM
58	Chocloy kids park with a splash pad, fence in for safety, parents of multiple children.	5/16/2023 9:56 PM
59	Nothing at Sands Township. Chocloy could use some updates	5/16/2023 9:21 PM
60	More indoor and outdoor pickleball courts	5/16/2023 9:05 PM
61	I think the park is great as is. Maybe just a few updates to keep adequate for usage.	5/16/2023 7:51 PM
62	Like the ski trails as they are.	5/16/2023 7:28 PM
63	Just keep the plains open to the public	5/16/2023 7:18 PM
64	A fence completely around the playground equipment.	5/16/2023 4:49 PM
65	More equipment at the crossroads park for the kids!	5/16/2023 4:02 PM
66	Resurface pickleball courts. Add more courts. Largest growing sport in the US	5/16/2023 3:49 PM
67	I think they're pretty good	5/16/2023 3:30 PM
68	Like to see more activity for kid to do/climb on at the park by themselves	5/16/2023 2:49 PM
69	Sands speedway sure could use a new layer of asphalt.	5/16/2023 2:48 PM
70	none	5/16/2023 1:09 PM
71	Park, just keep updated and safe, new bathroom	5/16/2023 12:59 PM
72	Sands. Better pickleball courts	5/16/2023 10:08 AM
73	-	5/16/2023 7:54 AM
74	Pavilion area - make a pickleball park	5/16/2023 7:50 AM

Sands Township Recreation Survey

75	More access for mountain biking.	5/16/2023 6:43 AM
76	Bathroom at the playground, not just an outhouse	5/16/2023 5:03 AM
77	Snowshoe trails, bike path	5/16/2023 4:25 AM
78	It would be great to add a Covered Pavillion for outdoor weddings and parties at the Townhall	5/15/2023 10:46 PM
79	Pickleball courts. Resurface damaged ones and more of them. Pickleball is quickly growing. More people playing.	5/15/2023 8:55 PM
80	Idk but I'm wondering if a martial arts school could have regular gym time to train if not part of sands township?	5/15/2023 7:41 PM
81	Bluebery ridge could have even more to offer in the summer. Maybe Singletrack mountain biking.	5/15/2023 7:33 PM
82	There aren't many places for little ones to play, so any playground equipment	5/15/2023 7:01 PM
83	Pickleball courts. More locations around the county. Larger/more courts	5/15/2023 5:59 PM
84	None. It's great.	5/15/2023 5:55 PM
85	No improvements needed	5/15/2023 4:41 PM
86	Sands Township park by increasing parking. The increase in pickleball popularity is pushing out people using the playground and basketball courts outside.	5/15/2023 4:33 PM
87	Maybe the option of a bathroom on the father back trauma at Blueberry Ridge	5/15/2023 3:49 PM
88	All of the parks	5/15/2023 3:34 PM
89	Sands Kids Park. It's a lot of fun now but perhaps a few more, unique pieces of equipment or structures.	5/15/2023 3:27 PM
90	Pickle ball courts.	5/15/2023 2:39 PM
91	More welcoming at pickleball. People are mean there	5/15/2023 2:37 PM
92	N/a	5/15/2023 1:58 PM
93	Currently I don't see anything that needs to be improved.	5/15/2023 1:49 PM
94	More places to ride utv	5/15/2023 1:47 PM
95	Strawbery lake - fill it back up and plant more fish for the kids	5/15/2023 1:24 PM
96	The trails for not only snowmobiles but for or/atv	5/15/2023 1:08 PM
97	Better maps and signs for ORV and snowmobile trails. So they have their own dedicated areas.	5/15/2023 12:55 PM
98	No comments	5/15/2023 12:21 PM
99	Couple more play structures for kids.	5/15/2023 12:08 PM
100	Sands township playground area.	5/15/2023 11:55 AM
101	Maybe add some signage for Strawberry lake, don't know what the picnic situation is there, maybe a picnic table or two. Is it a swimmable lake?	5/15/2023 11:22 AM
102	Atv/utv and snowmobile trails, access, allowance, ability to ride side of road to reach trail.	5/15/2023 8:40 AM
103	.	5/15/2023 8:04 AM
104	Sands speedway and orv trails	5/15/2023 7:34 AM
105	Sands Park.	5/15/2023 7:24 AM
106	Fence around pickleball courts	5/15/2023 6:59 AM
107	Sands plains, sand speedway	5/15/2023 6:56 AM
108	Perhaps an all season indoor facility. With pickleball courts.	5/15/2023 6:32 AM

109	Sands speedway. So many cool ideas are canceled, or dialed back. It's unfortunate.	5/15/2023 5:57 AM
110	At this point, I don't have any real improvements. We have access to anything we don't have in Sands, in Marquette. Keep it up.	5/15/2023 5:55 AM
111	None, I like what you have.	5/15/2023 5:01 AM
112	Na	5/15/2023 4:26 AM
113	Dedicated pickleball courts with permanent nets and lined for PB would be great	5/15/2023 3:02 AM
114	More friendly to the ATV, Jeep, snowmobile, and racing communities	5/14/2023 11:28 PM
115	It would be great if sands township could establish an indoor pickleball facility.	5/14/2023 11:09 PM
116	Great all around in my opinion. Basketball courts are excellent, tennis courts are in great shape, and the park looks fun for kids as well. Do not see much if any need for improvement	5/14/2023 10:54 PM
117	Orv areas, clearing and signage	5/14/2023 10:40 PM
118	Sands dirtbiking	5/14/2023 10:38 PM

8	I think adding a disc golf course would be a great idea.	5/19/2023 7:39 PM
9	Lighting in parking areas minimum and a basic pit toilet are most important. Not interested in any projects that would pave anything. Just more dirt trails	5/19/2023 5:57 PM

12	There are many walking trails and bike trails all over Marquette county. I think we need to focus on more what there isn't enough of. And improve what we already have	5/18/2023 3:44 PM

16	I'm not sure some of these questions are going to be answered as intended on the survey. I think it's a bit cumbersome with all of the arrows required to move the topics up or down based on order of priority. A simple choice of 1-4 on each would provide better ranking.	5/17/2023 9:54 AM

29	Disc golf	5/15/2023 10:09 PM
30	I know Pickleball has become very popular but it has become difficult to access the tennis courts with all the reservations. It seems like many from out of sands township are also allowed to use the facilities and that makes it even more difficult.	5/15/2023 5:55 PM
31	The park needs to be expanded. Everything the park provides is great but I feel that the large volume of pickleball players during the day is driving other people wanting to use the park out.	5/15/2023 4:33 PM
32	Pickle ball courts. You have a good start. Resurfacing and fencing would go a long way.	5/15/2023 2:39 PM

48	Improve parking access to the ORV trails	5/14/2023 9:54 PM
49	It seems you are turning a blind eye to power sports which fuels this community. It's a shame that motorcycles and atv/utv's are left out. One of the biggest privately owned businesses in sands caters to this community of off-road enthusiasts and pays taxes in the township. Might want to think about leveling the playing field here when it comes to spending tax payers money	5/14/2023 9:44 PM
50	Please cater to motorsports enthusiasm more	5/14/2023 9:37 PM
51	Nobody cares about parks the only recreation people want are ORV / ATV trails	5/14/2023 9:15 PM
52	More attention to motor sports. This survey seems strictly about things that don't involve a motor when we have a greater following for activities that include snowmobiles, dirt bikes, four wheelers and side by sides. Why not improve some of the trail network for these. Or better yet don't destroy a good portion of them with solar panels.	5/14/2023 9:15 PM

Look into other townships that have capitalized on this and how it impacts the economy. 77	I'd love a map to be mailed or digitally distributed to township residents detailing what public lands are available for dog walking, snowshoeing, and bird watching. Also, I know this is selfish, but please don't advertise our rec opportunities to people outside the township. Our tax dollars fund these resources, and we should not have to fight mobs of people who don't live here for access. It's really so perfect right now - I can almost always find a spot to be alone with my thoughts. I'd love to keep our hidden gems hidden from people outside sands township.	5/11/2023 10:11 PM

APPENDIX B GRANT HISTORY

Project Number: #TF1061
Park/ Facility: Strawberry Lake
Project Year: 1985
Project Description: Application was withdrawn.

Grant Amount: \$0
Project Status: Closed

Project Number: #26-01644
Park/ Facility: Sands Township Park
Project Year: 2005
Project Description: To update and develop basketball and tennis courts, an updated playground, resurfacing of parking lot, and vault toilet facilities.

Grant Amount: \$95,500
Project Status: Complete

OTHER GRANT HISTORY

Sands Township partnered with the DNR to lease a portion of the property at one of the park's trailheads to develop an accessible warming shelter with restrooms.

In 2013 an \$83,700 Land and Water Conservation Fund Grant was awarded to the township to fund the warming hut and was later paired with a \$20,000 DNR Partnership Match Grant. The ski club and local individuals, organizations and businesses donated the remaining funds needed to meet the total figure of \$190,000. The installation was complete in 2016.

APPENDIX C

UNIVERSAL ACCESS DESIGN GUIDELINES

GUIDELINES FOR DESIGNING ADA COMPLIANT AND UNIVERSALLY ACCESSIBLE PARKS

Michigan DNR Guidelines

- ACCESSIBLE TRAILS**
- WALKWAYS WITHIN A SITE – minimum 6 foot width and slopes under 2%
 - MULTI-USE TRAIL - 8 feet, with slopes under 2%, wider width so two people can walk side by side or people can pass
 - REGIONAL TRAIL SYSTEM - at least 10 feet wide, with 1-foot buffers on either side, with slopes under 2%
 - SURFACE TREATMENT - unitary surface (ex. concrete, boardwalk or asphalt, crushed aggregate/screenings that have been “stabilized” or natural soils enhanced with soil stabilizers)
 - TRANSITIONS - plates between trail and pedestrian bridges, decks, etc.
 - INTERSECTIONS - contrasting color treatment and textured surface treatments such as brushed concrete at intersections or interpretive stations to cue people who have vision impairments that there is something to pay attention to at that spot
 - Close to level cross slopes (side to side) and very gentle running slopes, no steep sections, larger (greater than 60”X60”) level areas at all turns and intersections
 - Thoughtfully laid out on the site to maximize the experience with minimal difficulty
 - AMENITIES - All should be accessible including: benches, restrooms (port-a-johns), drinking fountains, etc.

Quick reference of minimum requirements for accessible spaces. The 2010 American with Disabilities Act Standards for Accessible Design Guidelines provide a comprehensive resource. https://www.ada.gov/2010ADASTstandards_index.htm

- Clear width is 36" min for most accessible routes
- Surfaces: 1/4" max change, slopes less than 5%, firm and stable
- Head Clearance: 80" high and as wide as the route
- Clear Space: min 30" wide by 48" deep located at element
- Viewing: clear from 32"-51" height
- Maneuvering space: 60"x60" min and level, at entries and places for change of direction
- Transferable height: 17"-19" with transfer supports
- Knee Clearance: 27" high by 30" wide by 25" deep
- Table tops, counters, and rail heights: max 34" high
- Reach range: 48" max height forward and 15" min low side
- Operation: operating mechanism that is operable with one hand and does not require tight pinch/grasp/wrist twist to open

GUIDELINES FOR DESIGNING ADA COMPLIANT AND UNIVERSALLY ACCESSIBLE PARKS

BEACH -Routes over the beach and into the water, can be portable/temporary matting if it needs to be taken in and out for beach cleaning/ dragging or in the off season
 -Wide enough for side by side walking/passing
 -At beach route end have an accessible area at the waters edge large enough to park multiple chairs while the owners are in the water
 -With a transfer system at the waters edge so people can get down to the ground level and into the water.

TRANSFER STATION

FISHING DOCK + VIEWING DECK -More than 25% of the rails are lowered in various locations or no rails at all with only an edge treatment to prevent roll off
 -Sitting benches (all with backs and arm rests) scattered about so anglers can choose to sit or stand to fish
 -Tackle box stands next to one bench end (not both) leaving one end clear space for sitting side by side with someone in a wheelchair
 -A variety of fish landing cutaways strategically placed
 -A variety of accessible opportunities—over-water fishing, shore fishing, in-water fishing, etc.
 -Transition plates between access route and deck/pier

CAMPING -Accessible surface on all sites, including rustic sites
 -Larger spaces to accommodate side lifts on campers and vehicles
 -Accessible tables, grills (15" minimum, 34" maximum height), and fire rings on all sites
 -Centrally located restrooms on easy routes from each site

GUIDELINES FOR DESIGNING ADA COMPLIANT AND UNIVERSALLY ACCESSIBLE PARKS

SKIING + SLEDDING HILL

- Accessible route to top (no steps), possibly using a "magic carpet" lift
- Level surface for sled mounting at hill top
- If staffed, provide ATV transport or have policy that allows personal ATV use
- Transfer at hill bottom to help transfer down to sled and back up into chair/walker

<https://www.movingmountainsap.org/>

SPORT COURTS + FIELDS

- Routes to both sides of all fields and courts, not just end zones
- Accessible seating spaces both ground level and elevated if risers/bleachers are provided
- Accessible seating spaces scattered throughout all viewing areas and levels with companion seating on both sides of the space
- All lowered service windows at all concession areas
- Wider gate openings into court areas (tennis, bocce, basketball) and skate parks to accommodate wider sports wheelchairs
- Routes to both horseshoe pits and along both sides of the route between pits
- Level routes onto bocce courts with sitting benches at both ends

MAGIC CARPET LIFT

GUIDELINES FOR DESIGNING ADA COMPLIANT AND UNIVERSALLY ACCESSIBLE PARKS

- PLAYGROUNDS**
- Has both ramp and transfer access to all play components
 - Ramps to every “getting on spot” or “sit/stand & do it spot” of every play component
 - Transfer system from the ground up to the main deck located near the exits of slides and climbers furthest from the ramp onto the structure
 - Only unitary safety surface such as poured in place or rubber tiles NOT any loose fill materials likes shredded rubber, wood chips, engineered wood fiber, or any other non-unitary surface material
 - On deck transfer platform at the entry point of every slide
 - On deck transfer platform with one open transfer side and one side with transfer steps to every entry/exit point of every climber, so kids climbing up can get down to the deck to move to another component, as they may have left an assistive device at the ground
 - A good variety of things to manipulate that make noise or music, have high contrast/bright colors, games that two kids can play (to foster social interaction), Braille and sign language panels to teach awareness, easy to operate with just one hand with a whole fist (does not require tight/pinch/grasp/wrist twist to operate)
 - Different high contrast colors for decks versus transfers so kids with low vision can perceive a change in level
 - Play panels are located at heights so they can be used from a seated position or standing

GUIDELINES FOR DESIGNING ADA COMPLIANT AND UNIVERSALLY ACCESSIBLE PARKS

BOARDWALKS

- (A) -6 foot minimum width so two people can walk side by side or people can pass
- (B) -EDGE TREATMENT to prevent roll/step off
- (C) -SIDE RAILS - more than 25% must be lowered for easy viewing in various places along the boardwalk
- INTERPRETIVE INFORMATION - in a variety of alternative formats such as auditory, large print, Braille, pictures, etc.

NATURE CENTER

- INTERPRETIVE INFORMATION - in a variety of alternative formats such as auditory, large print, Braille, pictures, etc.
- TECHNOLOGY - Creative use such as mp3 players for auditory descriptions (this gives the info. directly to the individual) closed loop assistive listening devices and closed circuit captioning of all interpretive presentations
- All displays at lowered heights for sitting or standing viewing
- All operating mechanisms that are operable with one hand and do not require tight/pinch/grasp/wrist twist to operate

PARKING

- More than minimum number of accessible spots
- Each connected directly to an accessible route to the park elements and NOT into the traffic flow
- Thoughtfully located nearest the activity entrance, which might require multiple lots (some near the beach, some near the playground, some near the bathhouse, etc.)

GUIDELINES FOR DESIGNING ADA COMPLIANT AND UNIVERSALLY ACCESSIBLE PARKS

RESTROOMS

- More than the minimum number of accessible units
- Multiple unisex/single user toilet rooms/units so opposite sex care givers can assist; also good for parents of young children of the opposite sex so kids aren't sent alone into the multi-user restroom
- Thoughtfully located near areas of activity such as play areas, beaches, fishing piers, etc.
- Accessible door pulls and water faucet handles
- All accessible port-a-johns, again big enough for individual use or care giver/parental assistance.

PICNIC AREAS + ELEMENTS

- All tables, grills, fire rings, water pumps, etc. are accessible
- All located on accessible routes
- Level routes onto pavilions with no changes of level from path to pavilion surface
- Wider routes and clear space with firm surface around all elements so someone with mobility limits can easily move around the element (table, grill, etc.)
- A variety of table styles, some with clear sitting space on the side, some with extended table tops on the end
- Some fixed tables to ensure they remain accessible (not moved off into a grassy or sandy area, etc.)
- Clear space all around each element so people can approach and use the grill, fire ring, etc. from the front, back and either side
- Grills you can lower/raise the cooking surface with one hand
- Raised fire building surfaces so you can place wood without leaning too far over from a standing or seated position

- Distances referenced here assume the front edge of a chair lines up with the edge of a table top.
- Allow a minimum of 36" between seat backs to permit wheelchair access between tables.
- Allow a minimum of 24" between seat backs to provide a walkway between tables.
- Allow a minimum of 18" between a seat back and a table edge to permit access to all seats.
- Allow a minimum of 60" between a seat back and a table edge to allow for easy egress.
- Please refer to ADA guidelines and local codes to determine the number of wheelchair accessible seating spaces needed in a seating group. It is recommended that a minimum of 32" in width be provided to accommodate a wheelchair at a table.
- The minimum height and depth clearances necessary to accommodate a wheelchair at a table are 27" and 19", respectively.
